## Mains Water Hook Up

### The Easy Way to Connect Mains Water Hook Up

#### Features and Benefits

- No need to carry heavy water containers
- Allows a reliable continuous supply of water
- Delivers water without using battery power
- Suitable for use with caravans and motorhomes with either microswitch or pressure switch systems
- Suitable for use with on board pressure pumps to increase flow
- Regulates mains water pressure to nominal 1.5 bar (max 1.8 bar)
- Ideal for use in UK and European Parks with mains water hook up facilities
