## Environmental Policy

*Munster Simms Engineering Limited is engaged in the business of the design, development, manufacture, marketing, sale and delivery of pumps and water systems for the RV, Marine and other niche markets.*

*We recognise that our manufacturing activities may have a significant impact on the environment and that practical concern for the environment is an integral and fundamental part of our business and that of our clients.*

*We are committed to promoting continual improvement of our environmental performance and to the prevention of pollution through the design and construction of our products.*

*We aim to operate our business in a sustainable manner.*

*We endeavour to achieve this through the development and implementation of an environmental management system, in accordance with the requirements of the International Environmental Management Standard ISO 14001 through which we set, review and implement timetabled environmental objectives and targets.*

*We seek to comply with pertinent environmental legislation and regulations concerning our activities whilst delivering quality products efficiently, cost effectively and with the minimum disruption to the environment. We aim to limit our impact to the environment from our manufacturing processes where possible. These decisions are based on professional advice and close liaison with relevant authorities and agencies to minimise the impact.*

*Our environmental policy is communicated to all our employees and copies are available to the public on request.*
